### TURMERIC

#### FINGER & GROUND

TURMERIC POWDER

TURMERIC FIGNERS

#### Description:

*Turmeric (**Curcuma longa**) is a rhizomatous herbaceous perennial plant of the ginger family, Zingiberaceae which is native to tropical South Asia.*

*It is also known as kunyit (Indonesian and Malay) or haldi or pasupu in some Asian countries. Turmeric has a peppery, warm and bitter flavor and a mild fragrance slightly reminiscent of orange and ginger. Turmeric comes from the root of the **Curcuma longa** plant and has a tough brown skin and a deep orange flesh.*

*Turmeric has long been used as a powerful anti-inflammatory in both the Chinese and Indian systems of medicine. In medieval Europe, turmeric became known as Indian Saffron, since it is widely used as an alternative to far more expensive saffron spice.*

*The best quality turmeric fingers and powders are Erode fingers, Salem fingers, comes in different grades like double polish, single polish, broken fingers, and powder.*

# QUALITY ASSURANCE

## STAGE-1 FARM VISIT

*The process of quality check starts right from the farm. We have a dedicated team that goes on farm visits throughout India and interacts with farmers to obtain their opinions on the quality of soil and suitable weather conditions for new crops.*

## STAGE-2 RAW MATERIAL ACQUISITION

*The second stage involves the procurement of raw materials. All basic materials are acquired with immense care from either the market or directly from the farmers.*

## STAGE-3 PROCESSING & PACKAGING

*Next, we have a team of specialists wholly for processing, packing and loading. Throughout the procedure we are extremely alert to make sure no extraneous matter are spotted in our cargo.*

## STAGE-4 SHIPPING

*Finally, for the shipping process we use third party certification and also in house checklists to inspect every container we use to ship the cargo. All containers are thoroughly checked to meet the food safety standards before transportation.*
